Thursday morning Judge Hannon performed a rather interesting marriage ceremony. It was a sort of an international affair. With all the solemnity becoming the dignity of the Judge he united in marriage Mook Wah and Fook Gue, both residents of Menlo Park. The bridegroom is a native of China, aged 25 years, and is the chief cook for H. G. Stevenson of Fair Oaks. The blushing bride is a comely Japanese maiden who has seen twenty-two summers come and go. She is quite good-looking and was coy as a maiden of 16 in making her responses to the Judge. It is not known where the honeymoon will be spent. The young couple will reside at Menlo Park.

Frank Gray, president of the Redwood City Lumber Company, returned during the week from a seven-weeks' trip to the Eastern and Southern States. He visited his old home in Wheeling, West Virginia, and spent some time in New York and Chicago. He says the whole country is very prosperous. Many whom he met spoke in flattering terms of California, and particularly of San Francisco for the great energy that city has shown in rebuilding. Mr. Gray predicts a large influx of Eastern people to the State during the summer months.

CHANCE FOR REDWOOD CITY

PUMP FACTORY WANTS TO LOCATE IN THIS STATE

The Myers Pump and Manufacturing Company, temporarily located at Kansas City, Mo., has written to this paper seeking information in regard to the facilities our city has, and the inducements we are willing to offer to secure their factory, the product of which would be largely in demand in this section of the country.

This Company will have, to start on, a paid up capital stock of $50,000.00, and proposes to manufacture among other things in the water supply and fire protection line, an Automatic Pumping Machine, which is a great innovation in this class of machinery. The machine which they claim they have on exhibition at their Kansas City office may be wound up and then itswill automatically furnish fresh water whenever a float in a trough or tank indicates that it is needed. It is so designed that it can,through back gearing, be easily wound up in fifteen minutes, and it will then ordinarily, depending on conditions, run continuously for twelve hours, but inasmuch as the average farmer as a rule, only requires about one hour's constant pumping to supply his needs for a day, one winding will therefore, in most cases, answer for twelve days, and the machine is not effected by wind, or the lack of wind, or weather conditions of any kind. The machine is so constructed that it may be attached to any pump, just as it is many wel the only change being necessary is the piping to the trough or tank, connected to which is the float and automatic regulation device. A cut sent us from the Company shows the machine in operation.

In order to introduce the invention as quickly as possible the Company says it has adopted the plan of appointing local agents in each county in the state, giving exclusive rights to those who will devote their entire time to the sale of the machines. In this way they hope to realize quicker returns for the Stock Holders, as well as to give profitable employment to a large number of energetic men through out the state. So confident are they of success that they propose to place the machines out on 30 days free trial to reliable parties before any payment is made. They do not ask any bonus whatever from us to locate the factory here, but they will give our citizens an opportunity to subscribe for some of their stock, if after a thorough investigation, they are satisfied it will be a paying investment.

Those feeling interested in this proposition should take the matter up with the Company at once.

WILL ADVERTISE THE COUNTY.

The committee will meet next Monday when a definite plan of action will be outlined. No doubt the members will visit the various boards of trade, promotion committee to discuss matters and devise a good method of advertising the County and bringing before the people of the State the advantages this County has for the home-seekers. Reading matter descriptive of the County will be spreand broadcast and good results are expected. The Southern Pacific Company informed the board that the Bay Shore cut-off will be in operation by July.

SUPERVISORS IN SESSION

BUSNESS TRANSACTED AT LAST MEETING

The Board of Supervisors met in regular session last Monday. All the members were present.

A petition was read from P. A. Roussell asking for permission to dig a trench on and along Ralston avenue, Belmont, to connect with the Reid sewer. The prayer of the petition was granted on motion of MacBain seconded by Eikerenkotter.

A communication was read from C. E. Dugan in answer to the citation of the Board at its last meeting ordering C. E. Dugan to appear and show cause why the obstructions on Hill street in Belmont had not been removed. The letter stated that said obstructions were removed. Mr. Dugan, who was present said he did not own the property on which the barn was on and further more the obstructions complained of did not inconvenience the public in any way. Mr. King who made the complaint said the stable stood seven feet on the street. He claimed that Mr. Dugan showed bad faith in not removing said barn. Chairman Coleman explained that side of the stable extended into the street and it should be removed. He referred the whole matter to the District Attorney to act as he saw fi

A communication was received from the United Railroads calling attention to the condition of the road along its tracks in the First Township. The public were using the road macadamized by them to the injury of their property. Eikerenkotter said the Company had not acted in good faith. It had used the County road over four years and now finds fault because its road has been used only one month. The clerk was instructed to write the Company giving the true facts in the matter.

The following communication was receivde from the Visitacion Valley Improvement Club concerning the San Bruno road. On motion the communication was accepted and the Southern Pacific Company cited to appear and explain what they proposed doing in putting the highway in condition:

San Francisco, April 8, 1907.

The Honorable Board of Supervisors of San Mateo County,

Redwood City, Cal.

Gentlemen:—

I notice through the newspapers that your Honorable Board has appointed a commission of three Engineers to approve plans and specifications for the restoration of El Camino Real, through your county, and the improvements of other roads. My attention was attracted to the fact that in naming the roads and highways that were to have these improvements, nothing was said about the old San Bruno Road, which extends from the San Francisco County line at Visitacion Valley along the bay shore through Baden to San Bruno where it joins the Mission Road.

This road at the repesent time is in a deplorable condition owiing to the fact that the Southern Pacific Company have cut it too pieces while Building the Bay Shore Cut-off. Some two years ago this road was the best of all, leading into San Francisco. In my judgment, the Southern Pacific Company should stand the greater part of the expenses in restoring this road to good condition. The people of Visitacion Valley realize that the restoration of this road means an increase of business for them. It is a well known fact that the San Bruno Road is the shortest and has the best percentage of grade of the three main highways leading into San Mateo County.

Although the population in this part of the County is very scattered at the present time, still you no doubt realize that the deep water and the Railroad facilities along this shore line will cause this part of the County to become a great manufacturing center. Nothing can help this advancement more at the present time than a good road.

I trust therefore, that you will take immediate steps toward restoring San Bruno Road to at least a passable condition.

I remain, Respectfully,

F. R. CHAMBERS,

Chairman of Committee of High ways and Public Parks.

The following resolutions were presented to the board by Mr. Guy P. Hull in the name of the Peninsula Promotion League:

Whereas, the best interests of this Peninsula cannot be secured without good roads and more particularly uniformly good roads, and feeling that the Peninsula stands in present need of improvement along this line,- Now therefore, be it

Resolved,-That it is the sentiment of the Peninsula Pfomotion League representing the towns of Sunnyvale Mountain View, Mayfield, Palo Alto, Menlo Park, Redwood City, San Carlos, Belmont, San Mateo, Burlingame, Millbrae and South San Francisco that we most heartily endorse and approve the action of the Board of Supervisors of San Mateo County in its action toward securing better roads; and further

That we ask the Board of Supervisors of Santa Clara County to cooperate in this important movement to the end that we may have good roads the entire length of the Peninsula, and further

Resolved,- That a copy of these resolutions be presented to the Board of Supervisors of San Mateo County at its next regular meeting by a committee of three prominent citizens of that county, and that another copy of these resolutions be presented to the Board of Supervisors of Santa Clara County by a like committee from that county, and that these committees urge upon said boards favorable action in accordance with the views herein expressed. W. J. Martin, South City. F. E. Baskette, San Mateo; Guy P. Hull, Redwood City.

Supervisor MacBain, to whom was referred the matter of the petition to open Randall avenue; and the repair of the bridge on Middlefield Road, was granted further time in which to report.

The matter of the hearing of the petition of the Peninsula Railway Company for permission to construct and operate lines of Electric Railroad along Middlefield Road from San Francisquito creek to Redwood City, and along main County Road from Redwood City to San Mateo heretofore continued to and fixed for this day come regularly on.

It was moved by MacBain and seconded by Eikerenkotter that the above matter be continued indefinitely allowing each side 30 days to take the matter up.

Supervisor Eikerenkotter called the Board's attention to the fact that he fence in front of G. Risso's place, near the Eleven Mile House had not been removed. On motion of Eikerenkotter seconded by Blackburn, the matter was referred to the District Attorney with instructions to have said fence removed at once.

Leslie Johnston presented a map of Miramontez tract No.3, at Halfmoo Bay. Same was accepted and the following resolution was adopted on motion of Debenedetti seconded by Blackburn.

Whereas, Armand Levy is the Owner and Proprietor of a certain tract of land, situate and being in the County of San Mateo, State of California, and more particularly described as follows, to-wit:

Begining at a stake in the center line of Kelley Street in the Town of Spanishtown, the same being the most northwesterly corner of the hereinafter mentioned forty acre tract, and running thence South 6 degrees 47 minutes West 1541 feet to a stake at the most Southwesterly corner of said forty acre tract; thence North 81 degrees 07 minutes East, and along the most Southerly boundary of said tract 620 feet to a stake; thence North 6 degrees 47 minutes East 1373. 62feet to the center line of said Kelley Street; and thence South 83 degrees 13 minutes West and along said center line 597.86 feet to the pointofcommencement.

Being the westerly twenty acres of the certain forty acre tract ofland conveyed by Patrick Ryan to Francisco Silva Betenourta by deed dated Nov. 17, 1868, and being a portion of the Miramontes Rancho.

And, whereas, the said Armand Levy has caused the said tract tobe laid out and subdivided into blocks and lots for the purposes of sale, and has caused to be made an accurate map or plat thereof particularly setting forth and describing all the ground within such subdivision reserved for public purposes by boundaries, courses and extent; and also lots intended for sale by figures, and their precise length, width and dimensions, said map being designated as "Map of Miramontes Tract No. 3, Halfmoon Bay, San Mateo County, California" and whereas, the said Armand Levy did duly acknowledge the said map before Charles N. Kirkbride, a Notary Public in and for the County of San Mateo, State of California, upon the 15th day of April, 1907, and said notary did on said day duly affix thereto his certificate of such acknowledgement in due form of law; and whereas the certificate of the County Audito ofthis County has been duly affixed thereto shewing that there are no liens for unpaid State, County or other taxes (except taxes not yet payable) against said lot or subdivision of land or any part thereof; and whereas, the said map or plat is now presented to this Board for acceptance:

Now, Therefore, Be It Resolved, that Kelley Street, Miramontes avenue, Correas Avenue, Valdez Avenue, Garcia Avenue, and Alsace Lorraine Avenue, as delineated and designated on said map be and the sameare hereby accepted on behalf of the public by the Board of Supervisors of the County of San Mateo, State of California, as delineated to public use in accordance with the law in such cases made and provided and that the Clerk of this Board is directed to endorse acceptance on said map as follows, to-wit:—

Thoes portions of Kelley Street, Miramontes Avenue, Correas Avenue, Valdez Avenue, Garcia Avenue, and Alsace Lorraine Avenue, shown and delineated on this map, and declared by Armand Levy to be dedicated, are hereby accepted by the Board of Supervisors of the County of San Mateo, State of California, on behalf of the public, as dedicated to public use, in accordance with and subject to the terms of the resolution of said Board of Supervisors, adopted on the 15th day of April, A. D.1907.

And Be It Further Resolved that this resolution be adopted and said map accepted upon and subject to the express condition that the County of San Mateo does not hereby become responsible or liable for any expense, cost, or charge, as to said portions of Kelley Street, Miramontes Avenue, Correas Avenue, Valdez Avenue, Garcia Avenue, and Alsace Lorraine Avenue, or any part thereof, either for grading, macadamizing, or for any street purpose; this condition and the incurring of any expense, cost or charge being left to, thediscretion of Ffuture Boards of Supervisore; and provided further that no one of said Boards ofSupervisors nor any member thereof shall ever be liable for damages in any sum or amount arising by, or through any defect of any kind in saidstreets and avenues.

Glen Allen was present and exhibited the Court House plans. Several of the County officers were present and had some minor changes in their respective offices made. Allen will make the changes and will meet with the Board next Monday when the specifications as ammended, will be read Most likely the plans will be accepted at this meeting and a notice to contractors published.

Mr. W. H. Hall, Prof. C. D. Marks and Mr. Jno B. Leonard, the three engineers appointed by the Board to inspect certain roads of the county appeared before the Board and presente a report of their labors to date. eSaid report was read and ordered accepted and filed.

According to the report the Engineers had gone over the main County road from the San Francisco county line to the boundary line of Santa Clara County; a distance of 31 miles. They inspected in first riding over it and then afterwards on foot, but gave it asther opinion that any estimate of cost would necessarily be crude and incorrect although their recommendations of changes especially in the first township might be of some value. The recommended a raise of grade from the railroad overhead crossing near Colma to Holy Cross Cemetery, the increase to average five feet above the present grade. This will give ample protection from fershets. Also a change might be made by allowing the road to cross from where it at present is to the other side ofthe small valley along which it runs. As rights of way would have to be secured this might be too expensive.Through the rest of the county in many places little or no improvement would be necessary. The corss-roads have not yet been examined but on Friday, the Board will meet the engineers at San Mateo and take a trip along the western side of the mountains and the report will be presented at the next meeting of the Board. The engineers informed the board that they had communicated with the State Highway Commissioner and he had informed them that according to senate bill 737, before any extensive improvements could be made a county highway commission must be appointed and all the preliminary surveys, must be done by them, and the work be carried on under their supervision.

BOARD OF TRADE BANQUET

Eloquent speeches of business men predicting great future for Peninsula—Mr. Chamberlain presented With a silver wine set.

Thursady evening the merchants of this City and community held theird annualbanquet in the dining hall of Odd Fellows hall under the auspices of the Board of Trade. Owing to the fact that the community had made such rapid strdes towards restoration of Redwood City from thedisaster of a year ago the business men termed the dinner a "One Year After Banquet."

About sixty persons were seated at the banquet table. Among those attending were the Board of Supervisors Town Trustees and prominent men from Palo Alto, San Mateo and South San Francisco.

The little hall was beautifully decorated. Potted plants graced the wails. The long tables presented a fairy like scene with shaded candles in silver holders. Large bunches of St. Joseph lilies, American Beauty roses and potted ferns added further beauty to the scene. As the guests took up their forks they found them tied with gold ribbon which led the owners to button hole boquets that gracefully reposed in a bowl in the center of the table.

The Redwood City Orchestra was in attendance and discoursed excellent music.

At ten o'clock the guests marched into the hall in pairs, first came the president of the Board of trade, A. D. Walsh, to his right was Chairman of the Board of Supervisors, J. H. Coleman, then followed vice president G. P Hull with H. W. Simpkins, president of to Palo Alto Board of trade, P. P. Chamberlain escorted Supervisor Eikerenkotter, J. W. Where He Worshiped.

As the new minister of the village was on his way to evening service he met a rising young man of the place whom he was anxious to have become an active member of the church.

"Good evening, my young friend," he said solemnly. "Do you ever attend a place of worship?"

"Yes, indeed, sir, regularly every Sunday night," replied the young fellow, with a smile. "I'm on my way to see her now."—Ladies' Home Journal.

A STRANGE MAKEUP.

When Wilton Lackaye Looked "Like a Sore Finger."

Barrett was a very pompous man, and as my bump of reverence has always been a concavity he early marked me out for his displeasure. After giving me a list of plays for which to procure wardrobes—plays which he did not do during the season—he suddenly changed his mind and put on "Julius Caesar" in Richmond, Va. It was impossible to get an armor there. I played Metellus Cimber, first citizen and Phasarius—and a soldier! Luckily I had sandals and fleshings. I borrowed a tunic from Otis Skinner, a toga from the stage manager, who was out of the bill; I had a mob shirt made in the theater; I got out a makeup for Phasarius, the barbarian, but the soldier? All of the utility men were compelled to "eke the battle rabble out" as soldiers in the last act. I could not get in the town a helmet and armor, so I simply "lurked" behind the other soldiers clad in fleshings, sandals and Skinner's tunic, which came halfway to my knees. I was then five feet eleven and three-fourths and weighed 130 pounds, so you may imagine the audience hardly became conscious of me until my third entrance.

My modest disposition and my desire not to meet the star's eye did not avail me. He spotted me the first thing. As the curtain came down he called me and thundered, "What do you think you represent?"

I shyly responded, "A camp follower, sir, lurking behind the main column and robbing the dead."

"Huh!" he grunted, his eye passing up my stretch of shanks in pink fleshings, surmounted by the tight little tunic at top. "You look like a sore finger!"—Wilton Lackaye in Bohemian Magazine.

TELESCOPE LENSES.

Astonishing Sensitiveness of These Wonderful Glasses.

With the exception of astronomers, few persons have any idea of the wonderful sensitiveness of the lens of a telescope. These marvelous artificial eyes can be produced only by the exercise of the most scrupulous care in the selection of the glass itself, consummate skill and inexhaustible patience. The process of grinding and polishing often occupies several months. When the lens of a big telescope is completed, it constitutes one of the greatest marvels wrought by man.

An article in the Literary Digest describes how the sensitiveness of a lens was illustrated by Alvan Clark, the greatest lensmaker America has produced:

Mr. Clark walked down to the lens and held his hand under it about two feet away. Instantaneously a marvelous spectacle burst into view. It seemed as if the great glass disk had become a living volcano, spurting forth jets of flame.

The display was dazzling. Waving, leaping, dancing, the countless tongues of light gleamed and vibrated; then fitfully, reluctantly, they died away, leaving the lens reflecting only a pure, untroubled light.

What is it? How do you account for the wonder? were the eager questions. It is only the radiation of heat alternately expanding and contracting the glass. If the hand had been put upon the lens itself, the phenomenon would have been more violent.

To a person ignorant of lenses the almost supernatural sensitiveness of a mass of glass weighing several hundred pounds is astonishing, but to the scientist it is an everyday matter, for he has instruments that will register with unfaltering nicety the approach of a person fifty or a hundred feet away.
